

# KARL

*Developing Leadership Excellence*

The **KARL GRADUATE PROGRAM** is the next step in life-long learning experiences for alumni of the two year study, training and travel experience known as the *KARL Program*.

The graduate level program provides a cutting edge, interactive, professional development environment with continuous engagement for graduates and their spouses/adult guests.

Opportunities include timely clinics, workshops and conferences, as well as travel experiences in Kansas, the U.S. & unforgettable international destinations.

What do our participants say?

*“The Graduate Program allows for an amazing opportunity to learn and travel with fellow KARL alums and spouses to see places and interact with people we could never arrange on our own--all because of the leverage and relationships provided by KARL.” Clark and Carla Sue Boyer*
